

Family movie rentals by category

the chart show us the rental counts for each category of family movies.

There is a slight difference between the number of rentals for each category, but it appears to us that families are more interested in family films and animation films than in other categories, and less interest in music films.

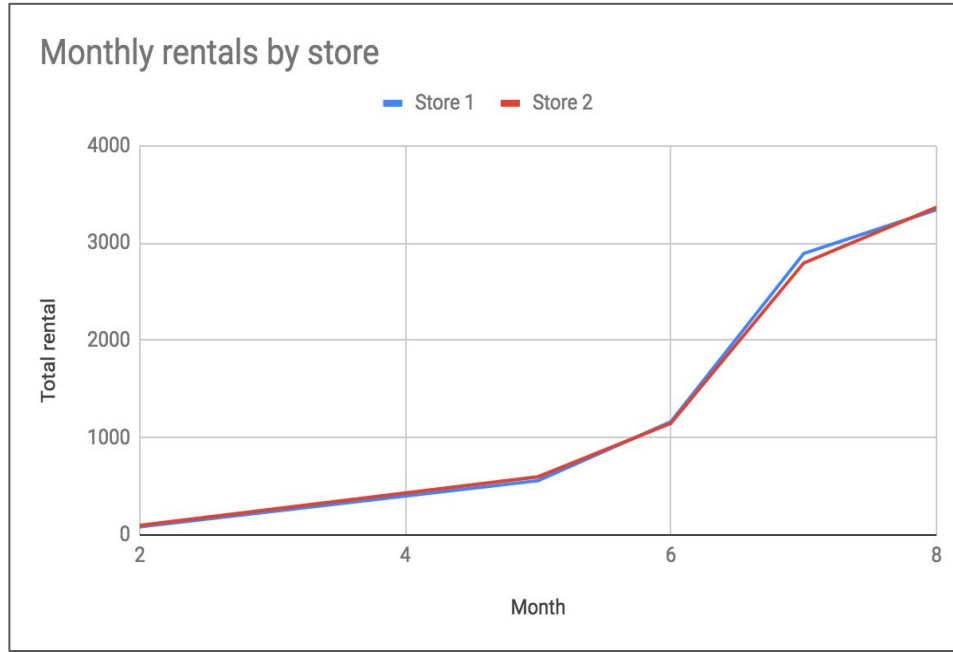

Distribution of movies by each quarter for each category

The chart show us the distribution of movies by each quarter for each category of family movies.

As we can see, the animation category ranks first in the first quarter, and the music category ranks last by a wide margin.

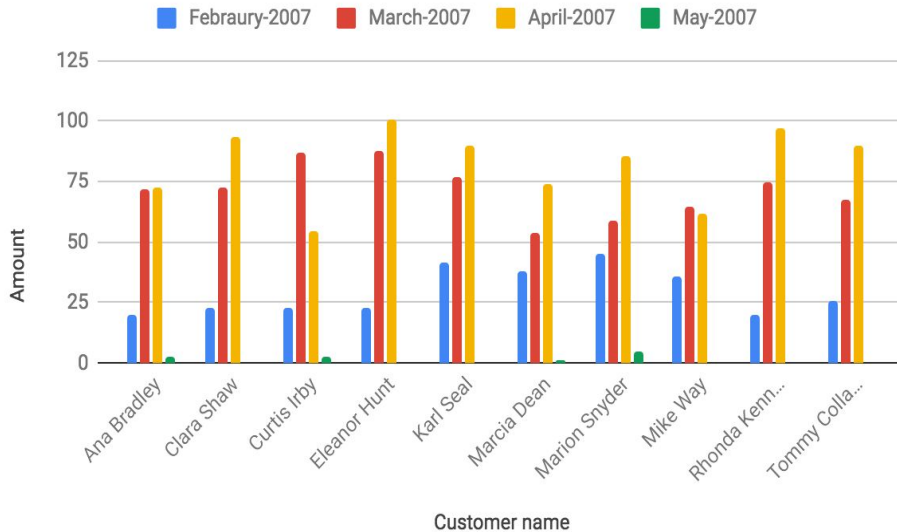

Stores compare in their count of monthly rental orders

The chart shows us that the number of rentals for each of the two stores is very much the same.

List the top 10 paying customers in 2007

Top 10 paying customers in 2007

The chart show us the top 10 paying customers in 2007.

And as we see that Eleanor Hunt tops the list with the highest payments in April.
